Mr. Sherman said the till contemplated nothing unconstitutional or revolutionary. Of the 2,000 removals made by the President since last summer, not 1,00 were reported to the Senate. If he believes the President would try to harman iro with the Senate and send in other names after his nominees had been rejected by the Senate, he would be willing to let him fill the vacuncles during the recess; but the President had manifested no disposition.

At Mr. Buckalow's engreetion Mr. Hendricks withdrew his amendment for the present to let the debate proceed on the general merits of the bill.

The amendment was agreed to.

Mr. Williams spoke generally in favor of the bill.

We understand that a certain party by the name of Coombs has sued the Oil Creek Railroad Company for the reward offered by Superof the parties who attempted to throw a train track of the Oil Creek Railroad, by plac lug obstructions thereon in October last.

There never was a more ridiculous assumption set up than this pretended claim of Coombs, as everybody knows who is at all familiar with this

The only connection that Coombs ever had with it was his accompanying Deputy Sheriff Harris and Keeney to Pioncer Run at the time of the first arrest of Chambers by Harris, and giving hearsay information to Officer Harris as to the identity of Chambers.

(polating him out;) went to Blakeslee's saloon on Monday, January 7th, and saw defendant ted for trial at the United States District Court there; he kept the saloon, and I storted for constable Leslie, with whom I returned to the saloon, and in my presence, Blakeslee handed one fifty cent fractional scrip to Leslie; we then teft the saloon, and took defendant to the Mayor's office, and there searched his person, and found three other fifty cent counterfeits in his possession. Cross-examined: I looked at the scrip but did

not handle it. Re-examined: Can distinguish this counterfelt

The witness was here subjected to a severe cross examination by counsel Gurdon S. Berry,

exhibiting his career from eight years of age; residing at his father's house; working out for two years; being on the Rochester police force; his resignation ; residing at Union ; residing with his wife here; falling to impeach his credibility, although the frivatous details elicited, seemed to exercise the Commissioner's patience, and

to go to Monroe street last Monday: went to Binkeslee's, looking for another man; Binkeslee informed me William Hughes had been passing counterfult serip; I have that semp now in my possession, and produce it with three others taken from defendant's person the same day. (Witness then marked the scrip by direct tion of the Commissioner, who also marked it and scaled it up.

Cross examined by B. S. McAilister, Esq. Defendant was not present when Blakesiee gave the scrip to me, and I know nothing about the passing of it, except what Blakeshee told me C. M. Blakesice, re-called : Identifies the scrip

produced by Leslie.
G. C. Hyde, Esq , sworn : On being requested as an expert to examine the four 50c fractional

defendant's counsel, and the limitations under which alone could their evidence be admitted were clearly set forth by Ira H. Pierce, counse for the United States. From the numerous authorities quoted, explanations and argument of the whom had evidently closely examined authorities and precedents, the practice will probably be, before this Commissioner: That witnesse for the defence will be examined, and their evi lence only received when it is of a nature to entirely explain away the charge, or tetally exit is of a character to throw doubt on previous vidence, or impeach the evidence submitted by the prosecution, thereby requiring the Commissioner to weigh and balance between conflicting vidence, and as it were usurp the province of a Judge's charge and a jury's deliberations, such vidence will be ruled out. The result will be, that the doubt which on a jury trial, is given in favor of a defendant, will in their examinations before the Commissioner, be cause for remitting the case to a jury, and operate practically against

C. M. Biakeslee sworn: Recognize the defend ant; he was in my soloon on Monday last. Car ter the last witness, came in with Leslie. The defendant had been in before that and offered mfifty cent scrip, which I refused. Defendant said the scrip was perfectly good; I replied, I think not, and asked for smaller change; he could not give me smaller change, and told me e go and borrow change; I did so, and he spen the amount lacking ten cents, before he left. He reminded me he had sold me a book last year. He asked for a private interview and showed me some coin, apparently silver, and Leslie returned and demanded the serip I had re ceived from Hughes, which had not left my hand since I received it. Lestle and defendant went out of my store in company. The defendant similar scrip at Lowry's and other places. The defendant told me in a confidential manner: Or some days I have sometimes spent \$100 and made \$30 or \$40 at it, and wanted to see me privately

defendant said there whe a good imitation of coin when he laid the coin on the table; have known Mr. Carter only since that day.

Frudy Aone Burroughs sworn: Was in Blakesleo's saloon last Monday; saw defendant throw down the fity cent scrip; saw him throw some coin on the bar; he said that could not be detected; heard him ask for a private interview

Cross-examined: Have worked four years with Mr. Blakeslee, doing house-work and cooking; was living with some relatives in Jamestows the bar, with my arm resting on the door; stood there about ten minutes; went out to a grocer's and bought some sugar and returned. This witness' examination did not in the least shake her provious testimony, although the examination

Patrick Donahue aworn: Was present Blakeslee's saloon on Monday; saw defeudant there; went in with him about 11 or 12 o'clock to Titusville yesterday afternoon, and stopped a. m.; heard some conversation, only about for the night at the Criticaden House. They scrip; we had a glass of beer; defendant ten-fook the early train this morning for Boyd farm, dered some scrip; Blakeslee thought it was not and will probably return here to-day. They good; Bughes said he thought it was good, and spoke in high terms of their accommodations if it was not, as he would be up on Thursday, he would then give him good scrip for it; Hughes took out a quarter-dollar coin, and said that was a pocket piece he did not want to spend; saw detendant and Blakcalce at the bar; did not see either of them leave the room; went out to leave by the down train, and found it gone; we renained there twenty minutes or half an hour.

Generally this witness corroborated P. Anne Buttow's evidence, as to her position, and heing I did not bear defendant say he had offered scrip elsewhere, or passed it elsewhere; I was sitting at the stove, about three feet from them;

I did not mind what they were talking about : 1 might have heard all they, said, but I did not mind them, as I was altting near the stoye; I saw defendant have three-quarter coins in his possession; I did not see him offer them to Blakeslee; I did not hear him sek Blakeslee for a privaté interview, nor did I bear Blakeslee say he could not go to a private room with him; I was in the place, but I did not mind; I did not hear all the conversation.

Cross-examined; I live off Mechanic street am a cooper: have known Hughes for years; had not seen him until that day for four or five weeks; was formerly in partnership with him; we kepta isloon together; I was waiting about to see Mr. Annia the bosa cooper, for a job; saw the girl P. They are, as fast as they are printed, delivered into the hands of the Committee.
